## DISTURBING INFLUENCES

### Many Forces at Work to Upset the Stock Market

New York, Sept. 23.—The week in the stock market was replete in exciting events. Rumors of federal action against the industrial corporations, especially the International Harvester company and the United States Steel corporation resulted in a tremendous selling movement, particularly in the steel issues, which sent the preferred and common shares down to the lowest prices recorded in more than two years. It is officially admitted that the Harvester company is in process of reorganization, but so far as could be learned negotiations looking to a dissolution of the steel corporation are yet contemplated. A statement issued by the department of justice at Washington conveys the broad inference that all offending trusts or monopolies will be prosecuted unless they conform to the anti-trust laws. Financial and political conditions abroad accentuated the unsettled condition here. The Moroccan situation is still in a state of deadlock and advances in discounts during the week by the Bank of England, Bank of France and other continental institutions were effective in calling new attention to the tension existing throughout Europe irrespective of labor conditions there, which were exemplified in the riots of Vienna and throughout Spain. Industrial conditions at home offer little ground for encouragement. There are indubitable signs of an early "liquidation of labor," especially in the steel trade, and while a better demand is reported for textiles, the mercantile situation shows little change for the better. Money continues easy to all sections of the country, despite the increased demands resulting from crop requirements. One of the few encouraging features of the week was a sharp decline in cotton options.

## ALLEN'S DEATH AN ACCIDENT

Chicago, Sept. 23.—Coroner Hoffman, after investigating the death of Charles W. Allen, the wealthy leather manufacturer of Kenosha, Wis., who was killed yesterday afternoon by falling from a window of his room on the fourth of a downtown hotel, expressed the opinion that the death was the result of an accident. Relatives and employees of the hotel said Mr. Allen had been subject to attacks of vertigo for several years. The coroner believes the manufacturer was seized with a dizzy spell in his room, and went to the open window to get air and accidentally fell into the light shaft. The telegram received shortly before the accident was from a relative at Drummond, Mont., on a business matter, and the word "Keno" at the end of the message meant that everything was all right," said Mr. Hoffman. "This word was used by members of the family in letters and telegrams. The bell boy who delivered the telegram watched Mr. Allen read it and he says Allen smiled and said there was no answer."

## UNITED STATES AGAIN TO PATROL BORDER

El Paso, Texas, Sept. 23.—Border patrol at Columbus, N. M., by United States cavalry, is to be resumed as a result of the visit of General Duncan, commander of the department of Texas, to El Paso. This is stated here unofficially, General Duncan being out of the city today. A report that an armed body of Magonistas would cross from the American side at Columbus to Mexico Sunday, and the repeated threats of magonistas to attack Juarez, has resulted, it is said, in General Duncan asking that the patrol be renewed in this vicinity.

Boston, Sept. 23.—That sugar will be cheaper within a fortnight is the prediction of Edward F. Atkins, vice president and managing director of the American Sugar Refining company. In a statement issued here, Mr. Atkins said: "The domestic beet sugar crop of the west is just commencing and in two weeks deliveries will be made. This crop is estimated at 530,000 tons. ### Stock Market is Calm After a Day of Excitement

New York, Sept. 23.—Comparative calm prevailed at the opening of the stock market today after the wild scenes of yesterday. Trading was on a much smaller scale and advances were general. The preferred stock, which closed yesterday at 40 3/4, opened at 40 1/2. On the next sale its gain was increased to a full point.

He was saved from death by landing on a fire escape twenty feet below the window.

Ucker, chief clerk of the interior department, who acted as secretary of the conference. This opinion, said Mr. Ucker, was held by park superintendents, railroad men, those having park concessions and others.

### WHEAT MARKET IS AGAIN QUIET

Chicago, Sept. 23.—Apparently all traces of reciprocity excitement had disappeared today from the wheat market. Instead there was a slight tendency toward reaction from the rapid advance yesterday. Bearish sentiment was aided by highly favorable crop reports from Russia and Roumania. Cable dispatches were disappointing to the bulls, as there was no foreign reaction to the strength which had been shown yesterday on all grain exchanges in the United States. The opening here was unchanged to 3-8c lower, December started at 98 1/2c to 98 5/8c, unchanged to 1-8c off, received to 98 1/4c, and then rallied to 98 5/8@3-4c.
